

WEEK 3

reMarkable Pro

Week 3 Practice Draw

Stomach & Spleen Channels

ST (45 pts) + SP (21 pts) = 66 Points

This Document Contains:

- Stomach channel - internal + external pathway, 6 branches, special points
- Spleen channel - internal + external pathway, branch to Heart, 8-cun exception
- Faint tracing figures - draw from memory, then check
- Dr. Zhang's rule: draw BOTH internal AND external pathways

QUIZ 3 (next class) covers: ST & SP channels

HT & SI will be TAUGHT next week (Week 4).

MOA: ST pp.125-176 | SP pp.177-207 | CAM: Col. Fig. 3-5

Practice Draw - Stomach Meridian of Foot-Yangming (ST)

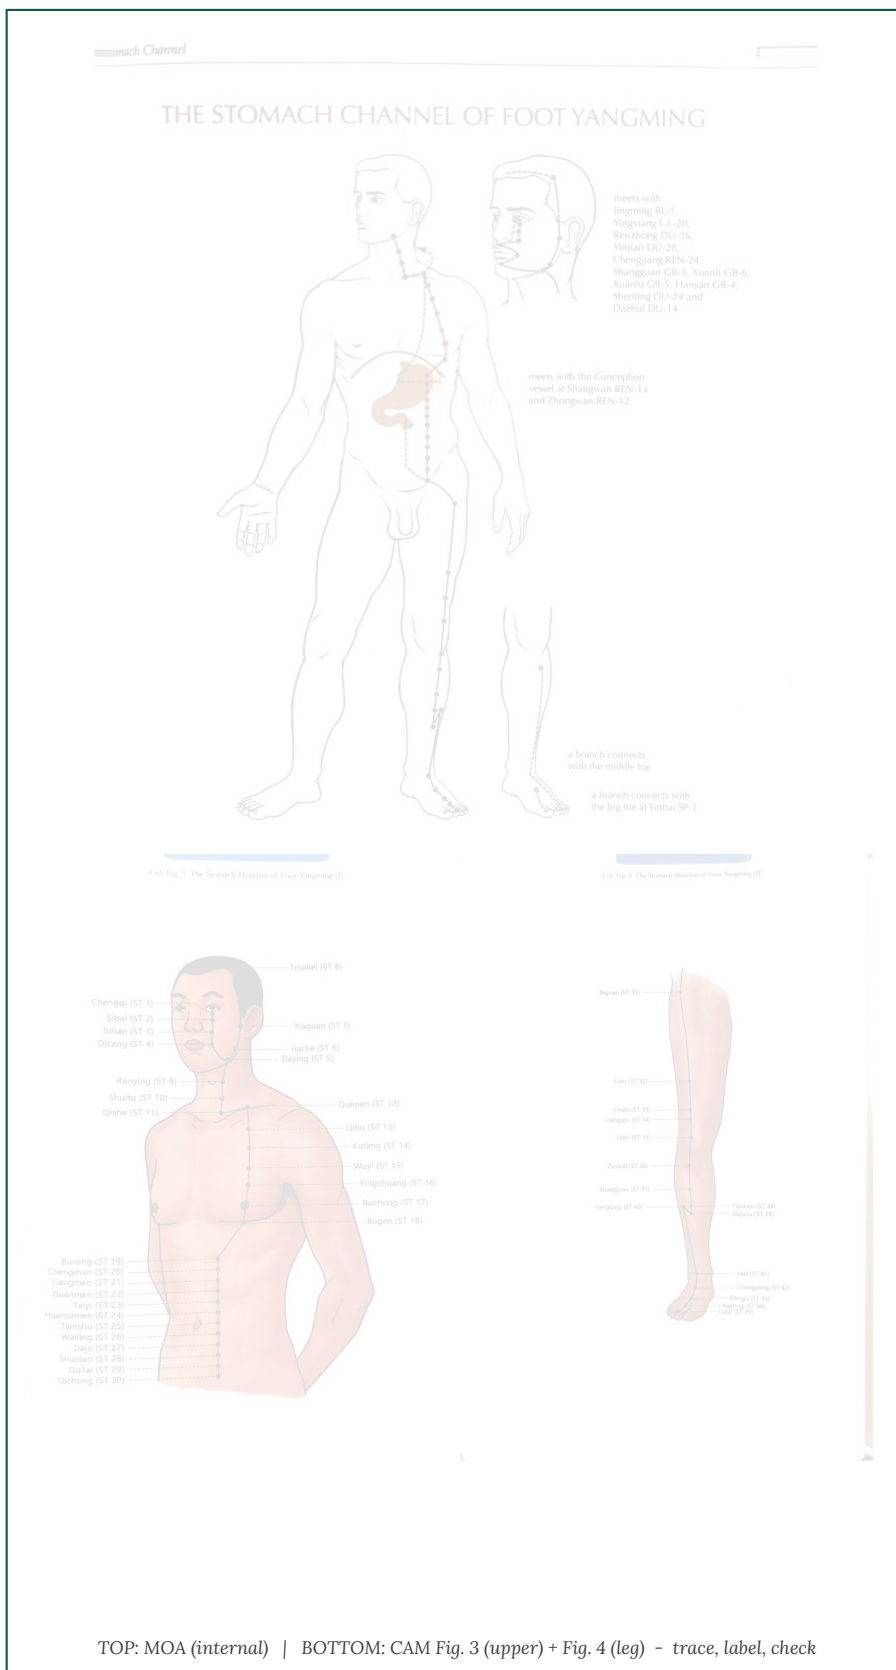

45 points | 6 branches | head to foot

Dr. Zhang's rule: draw BOTH internal AND external pathways from memory.

The faint figure is a guide only - trace, then check against the Study Guide (ST pages).

CHECKLIST

1. Draw the INTERNAL pathway (dotted): ala nasi -> nose bridge -> upper gum -> lips -> CV24 -> supraclavicular fossa -> diaphragm -> STOMACH (pertains) -> SPLEEN (connects)
2. Draw the EXTERNAL pathway (solid): ST1 (below eye) down face -> ST9 neck -> ST12 fossa -> through NIPPLE -> beside umbilicus (ST19-29) -> ST30 groin -> thigh -> knee -> lateral tibia -> ST45 (2nd toe)
3. Mark the 6 branches: (1) face/forehead (2) facial internal (3) straight/nipple (4) stomach orifice -> 2nd toe (5) tibial branch ST36 -> middle toe (6) foot branch ST42 -> SP1
4. Label special points: ST36 (He-Sea/Command), ST40 (Luo), ST42 (Yuan), ST34 (Xi-Cleft), ST44 (Ying), ST25 (Front-Mu of LI)

Practice Draw - Spleen Meridian of Foot-Taiyin (SP)

21 points | foot to chest

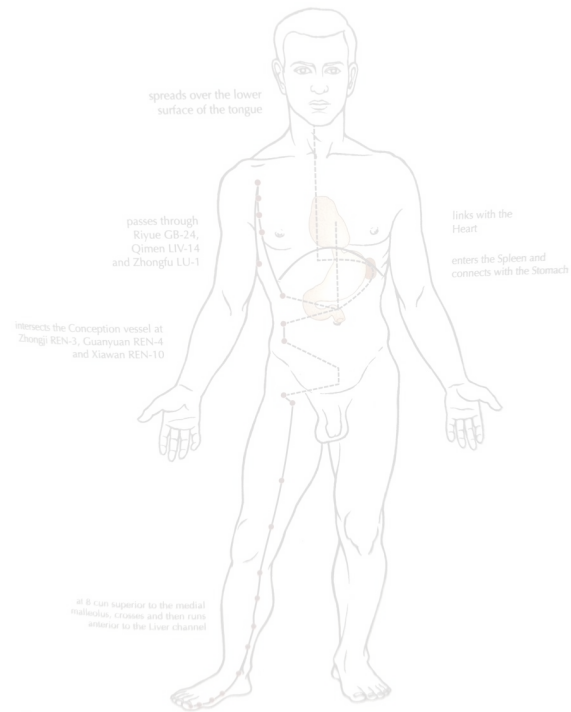

Dr. Zhang's rule: draw BOTH internal AND external pathways from memory.

The faint figure is a guide only - trace, then check against the Study Guide (SP pages).

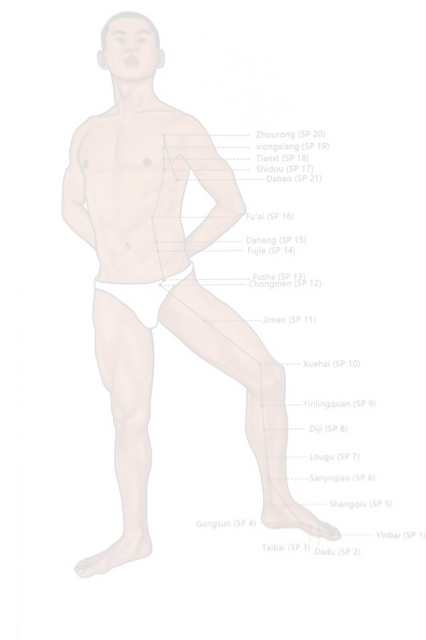

CHECKLIST

1. Draw the EXTERNAL pathway: SP1 (big toe) -> medial foot (red/white skin) -> front of medial malleolus -> medial leg (POSTERIOR tibia) -> 8-cun CROSSOVER (in front of LR) -> medial knee/thigh -> abdomen -> chest -> SP21
2. Draw the INTERNAL pathway: enters abdomen -> pertains SPLEEN, connects STOMACH -> through diaphragm -> alongside esophagus -> spreads over LOWER SURFACE of TONGUE
3. Draw the BRANCH: from stomach -> up through diaphragm -> into HEART -> connects HT (Hand-Shaoyin)
4. Mark the exception at 8 cun above medial malleolus (SP crosses in front of LR). Label: SP3 (Yuan/Shu), SP4 (Luo/Confluent), SP6 (3-Yin), SP9 (He-Sea), SP10 (Sea of Blood), SP8 (Xi-Cleft)

THE SPLEEN CHANNEL OF FOOT TAIYIN

Col. Fig. 3 The Spleen Meridian of Foot Taiyin

TOP: MOA (internal) | BOTTOM: CAM Fig. 5 (external) - trace, label, check
