

WEEK 3 | QUIZ KIT

60-Question Practice Exam

Stomach & Spleen Channels - closed book

Print Edition

STOMACH (ST)

Yang | Earth | 7-9 AM | 45 points

Foot Yangming | 11 crossing points

SPLEEN (SP)

Yin | Earth | 9-11 AM | 21 points

Foot Taiyin | 6 crossing points

Coverage

- SET A - concepts, pathways, circuit continuity
- SET B - exact locations, Five-Shu, clinical reasoning
- Full answer key with explanations for all 60

Q1-Q30
Q31-Q60
at the back

How to use this

- Close the book. No notes, no app.
- Take ONE set at a time, ~25 min each.
- Mark every guess, even correct ones.
- Score, then re-drill ONLY the misses.
- Take the other set 48 hours later.

Scoring guide (per 30)

- 27-30 Exam ready. Preview Week 4.
- 23-26 Solid. Drill missed categories.
- 18-22 Re-read the pathway pages.
- Below 18 Full re-study before Quiz 3.

60 unique questions - two independent 30-question sets.
Set A and Set B never repeat each other.

SET A - Questions 1-10

ST & SP | no notes

- 1 Direction of Qi in the 3 foot-YANG meridians?
 - A. Foot to chest
 - B. Chest to hand
 - C. Hand to head
 - D. Head to foot
- 2 Which element do ST and SP both belong to?
 - A. Water
 - B. Fire
 - C. Earth
 - D. Metal
- 3 The CONNECTING organ of the Stomach meridian is:
 - A. Heart
 - B. Lung
 - C. Large Intestine
 - D. Spleen
- 4 ST meridian BEGINS at which point?
 - A. ST1 Chengqi
 - B. LI20 Yingxiang
 - C. CV24 Chengjiang
 - D. GV26 Shuigou
- 5 Which statement is UNIQUE to the ST channel?
 - A. Crosses to opposite side
 - B. Passes through the nipple
 - C. Spreads over lower tongue
 - D. Opens to nose
- 6 How many crossing points does the ST meridian have?
 - A. 4
 - B. 6
 - C. 8
 - D. 11
- 7 ST36 (Zusanli) holds which special categories?
 - A. Yuan-source + Xi-Cleft
 - B. He-Sea + Command (Abdomen)
 - C. Luo + Confluent
 - D. Jing-Well + Luo
- 8 ST40 (Fenglong) is clinically known as:
 - A. #1 tonic point
 - B. Sea of Blood
 - C. #1 phlegm-resolving point
 - D. Window of Heaven
- 9 Peak Qi activity of the Stomach meridian is:
 - A. 9-11 AM
 - B. 5-7 AM
 - C. 7-9 AM
 - D. 11 AM-1 PM
- 10 ST25 (Tianshu) is the Front-Mu of which organ?
 - A. Stomach
 - B. Bladder
 - C. Large Intestine
 - D. Small Intestine

SET A - Questions 11-20

ST & SP | no notes

11 Direction of Qi in the Spleen meridian?

- A. Head to foot
- C. Foot to chest

- B. Chest to hand
- D. Hand to head

12 How many acupoints does the Spleen meridian have?

- A. 11
- C. 21

- B. 20
- D. 45

13 The SP distribution exception occurs at:

- A. 3 cun above medial malleolus
- C. The knee

- B. 8 cun above medial malleolus
- D. The groin

14 Above the 8-cun crossover, SP moves to which position relative to LR?

- A. Posterior to LR
- C. In front of (anterior to) LR

- B. Same level as LR
- D. Lateral to LR

15 Which is UNIQUE to the SP meridian pathway?

- A. Passes through the nipple
- C. Crosses to opposite side

- B. Spreads over lower surface of tongue
- D. Ends at the nose

16 SP's branch connects to which next meridian?

- A. PC Pericardium
- C. HT Heart

- B. LI Large Intestine
- D. BL Bladder

17 SP6 (Sanyinjiao) is which type of point?

- A. Front-Mu of SP
- C. He-Sea of SP

- B. Crossing of 3 Yin meridians
- D. Yuan-source of SP

18 Which SP point is the Sea of Blood?

- A. SP4
- C. SP9

- B. SP6
- D. SP10

19 SP4 (Gongsun) opens which extraordinary vessel?

- A. Ren Mai
- C. Chong Mai

- B. Du Mai
- D. Dai Mai

20 SP9 (Yinlingquan) He-Sea - primary action:

- A. Moves Blood
- C. Opens Ren Mai

- B. Resolves Dampness
- D. Clears Yangming heat

SET A - Questions 21-30

ST & SP | no notes

21 UPPER teeth and gums = which channel?

- A. LI
- B. ST
- C. SP
- D. GB

22 How many total branches does the ST meridian have?

- A. 3
- B. 4
- C. 5
- D. 6

23 The Front-Mu of the Stomach itself is:

- A. ST25
- B. ST36
- C. CV12
- D. CV13

24 Which CV crossing point of ST is at the mentolabial groove?

- A. CV10
- B. CV12
- C. CV13
- D. CV24

25 ST34 (Liangqiu) location:

- A. 3 cun below knee
- B. 2 cun above superolateral border of patella
- C. 8 cun above ST41
- D. Center dorsal ankle

26 SP1 (Yinbai) is which type of point?

- A. He-Sea
- B. Yuan-source
- C. Jing-Well
- D. Luo-connecting

27 SP21 Dabao - what is its category?

- A. Front-Mu
- B. Xi-Cleft
- C. Great Luo-Connecting of SP
- D. Yuan-source

28 Which SP crossing point is the Front-Mu of the Liver?

- A. CV3
- B. CV4
- C. GB24
- D. LR14

29 Which of the following is FORBIDDEN IN PREGNANCY?

- A. ST36
- B. SP9
- C. SP6
- D. ST40

30 According to Dr. Zhang, ST36 has been shown in Nature studies to:

- A. Open the Du Mai
- B. Relieve inflammation immediately
- C. Spread over lower tongue
- D. Cross to opposite side

SET B - Questions 31-40

ST & SP | no notes

31 The Stomach channel belongs to which of the six levels?

- A. Taiyang
- B. Shaoyang
- C. Yangming
- D. Taiyin

32 Which point is the Xi-Cleft of the Stomach channel?

- A. ST34 Liangqiu
- B. ST36 Zusanli
- C. ST40 Fenglong
- D. ST42 Chongyang

33 ST12 Quepen is located at:

- A. Below the midpoint of the clavicle
- B. Center of the supraclavicular fossa
- C. Above the medial end of the clavicle
- D. 1st intercostal space

34 The Back-Shu point of the Stomach is:

- A. BL20
- B. BL21
- C. BL23
- D. BL25

35 Which ST point marks the center of the nipple and is never needed?

- A. ST16 Yingchuan
- B. ST17 Ruzhong
- C. ST18 Rugen
- D. ST15 Wuyi

36 ST31 Biguan is located:

- A. Directly below the ASIS, level with the perineum
- B. 6 cun above the patella
- C. Below the midpoint of the clavicle
- D. At the inguinal groove

37 The Jing-River point of the Stomach channel is:

- A. ST41 Jiexi
- B. ST43 Xianggu
- C. ST44 Neiting
- D. ST45 Lidui

38 Which ST point sits 8 cun below ST35?

- A. ST37 Shangjuxu
- B. ST38 Tiaokou
- C. ST39 Xiajuxu
- D. ST40 Fenglong

39 The Stomach channel's internal branch first reaches which Ren Mai point?

- A. CV4
- B. CV10
- C. CV12
- D. CV24

40 On the lower leg the ST channel runs along which landmark?

- A. Posterior border of the tibia
- B. Anterior border of the lateral tibia
- C. Medial border of the tibia
- D. Between tibia and fibula heads

SET B - Questions 41-50

ST & SP | no notes

- 41 The Yuan-Source point of the Spleen channel is:
 A. SP1 Yinbai
 B. SP3 Taibai
 C. SP4 Gongsun
 D. SP5 Shangqiu
- 42 Which SP point is the Xi-Cleft?
 A. SP6 Sanyinjiao
 B. SP8 Diji
 C. SP9 Yinlingquan
 D. SP10 Xuehai
- 43 The Front-Mu point of the Spleen is:
 A. CV12 Zhongwan
 B. LR13 Zhangmen
 C. LR14 Qimen
 D. GB24 Riyue
- 44 SP2 Dadu is which Five-Shu point, and which element?
 A. Jing-Well, Wood
 B. Ying-Spring, Fire
 C. Shu-Stream, Earth
 D. He-Sea, Water
- 45 Which SP point is level with the navel, 4 cun lateral to the midline?
 A. SP14 Fujie
 B. SP15 Daheng
 C. SP16 Fuai
 D. SP13 Fushe
- 46 The Jing-River point of the Spleen channel is:
 A. SP3 Taibai
 B. SP5 Shangqiu
 C. SP7 Lougu
 D. SP9 Yinlingquan
- 47 Which SP crossing point is the Front-Mu of the Gallbladder?
 A. CV10 Xiawan
 B. GB24 Riyue
 C. LR14 Qimen
 D. LU1 Zhongfu
- 48 The Spleen channel's surface pathway terminates at:
 A. SP17 Shidou
 B. SP19 Xiongxiang
 C. SP20 Zhourong
 D. SP21 Dabao
- 49 Which meridian receives Qi directly after the Spleen in the circadian cycle?
 A. Lung
 B. Heart
 C. Bladder
 D. Liver
- 50 SP6 Sanyinjiao is the meeting point of which three channels?
 A. SP, ST, LR
 B. SP, LR, KI
 C. SP, KI, BL
 D. SP, LR, GB

SET B - Questions 51-60

ST & SP | no notes

51 SP4 Gongsun is paired with which point in the confluent point system?

- A. LU7 Lieque
- B. PC6 Neiguan
- C. SI3 Houxi
- D. TE5 Waiguan

52 Which ST point lies in the carotid region and influences blood pressure?

- A. ST5 Daying
- B. ST9 Renying
- C. ST11 Qishe
- D. ST12 Quepen

53 The ST channel crosses the Du Mai at which point on the philtrum?

- A. GV20 Baihui
- B. GV24 Shenting
- C. GV26 Shuigou
- D. GV14 Dazhui

54 On a YIN channel, the Jing-Well point corresponds to which element?

- A. Metal
- B. Water
- C. Wood
- D. Fire

55 Which statement about the SP 8-cun crossover is correct?

- A. Below 8 cun SP is anterior to LR
- B. Above 8 cun SP is posterior to LR
- C. Below 8 cun SP is posterior to LR
- D. SP and LR never change position

56 The Luo-Connecting point of the Stomach channel is:

- A. ST34
- B. ST36
- C. ST40
- D. ST42

57 Which ST point is the Lower He-Sea of the Small Intestine?

- A. ST36
- B. ST37
- C. ST39
- D. ST40

58 A patient reports numbness on the underside of the tongue. Which channel?

- A. Heart
- B. Stomach
- C. Spleen
- D. Kidney

59 Counterflow Stomach Qi typically presents as:

- A. Diarrhea
- B. Vomiting
- C. Prolapse
- D. Bleeding

60 Which sequence correctly completes the Anterior Circuit?

- A. LU -> LI -> SP -> ST
- B. LU -> LI -> ST -> SP
- C. LI -> LU -> ST -> SP
- D. LU -> ST -> LI -> SP

Answer Key - Set A (Q1-Q30)

score, then re-drill only the misses

1 D Direction of Qi in the 3 foot-YANG meridians?

Head to foot - foot yang meridians always flow from head downward to toes. Yang goes external/downward.

2 C Which element do ST and SP both belong to?

Both ST and SP = Earth element. They form the interior-exterior pair of the Earth phase in the Anterior Circuit.

3 D The CONNECTING organ of the Stomach meridian is:

ST connects with the Spleen (yin-yang interior-exterior pair). Pertaining = Stomach, Connecting = Spleen.

4 B ST meridian BEGINS at which point?

ST begins at LI20 Yingxiang (a crossing point of the LI channel). ST1 Chengqi is the first numbered ST point but the pathway originates at LI20.

5 B Which statement is UNIQUE to the ST channel?

Only the Stomach meridian passes through the nipple. Dr. Zhang: 'If patients have nipple pain, numbness - choose stomach meridian.'

6 D How many crossing points does the ST meridian have?

11 crossing points - the most of any primary channel. Mostly located in face/head. Dr. Zhang: 'Any facial symptom, always consider ST.'

7 B ST36 (Zusanli) holds which special categories?

ST36 = He-Sea + Command for Abdomen. Most important tonic point in TCM. Published in Nature for anti-inflammatory effects.

8 C ST40 (Fenglong) is clinically known as:

ST40 = #1 phlegm-resolving point in all of TCM. Resolves phlegm-dampness anywhere in the body. Luo-connecting point.

9 C Peak Qi activity of the Stomach meridian is:

ST peak = 7-9 AM. Eat largest meal in the morning when stomach Qi is strongest.

10 C ST25 (Tianshu) is the Front-Mu of which organ?

ST25 Tianshu = Front-Mu of the LARGE INTESTINE (not the stomach itself). CV12 Zhongwan = Front-Mu of Stomach.

11 C Direction of Qi in the Spleen meridian?

SP = foot yin meridian. Foot yin meridians all flow foot to chest/abdomen.

12 C How many acupoints does the Spleen meridian have?

SP has 21 points: SP1 (Yinbai) to SP21 (Dabao, Great Luo-Connecting point).

13 B The SP distribution exception occurs at:

8 cun above the medial malleolus - the ONLY exception to the three-yin distribution rule in all 12 meridians.

14 C Above the 8-cun crossover, SP moves to which position relative to LR?

Above 8 cun, SP crosses IN FRONT of LR, returning to its Taiyin (anterior) position.

15 B Which is UNIQUE to the SP meridian pathway?

Only SP spreads over the LOWER SURFACE of the tongue. Dr. Zhang: 'Numbness in lower tongue = always SP in clinic.'

16 C SP's branch connects to which next meridian?

SP's branch goes from stomach through diaphragm into the HEART, linking the Heart Meridian of Hand-Shaoyin (HT).

17 B SP6 (Sanyinjiao) is which type of point?

SP6 = crossing of 3 Yin meridians (SP, LR, KI). Governs all three yin channels. STRICTLY FORBIDDEN IN PREGNANCY.

18 D Which SP point is the Sea of Blood?

SP10 Xuehai = Sea of Blood. Cools and moves blood; used for skin disorders (urticaria, eczema) and irregular menstruation.

19 C SP4 (Gongsun) opens which extraordinary vessel?

SP4 opens the CHONG MAI (Penetrating Vessel). Paired with PC6 Neiguan in the confluent point system.

20 B SP9 (Yinlingquan) He-Sea - primary action:

SP9 Yinlingquan = master point for RESOLVING DAMPNESS. Edema, diarrhea, urinary disorders, knee pain, vaginal discharge.

21 B UPPER teeth and gums = which channel?

UPPER teeth/gums = ST (ST enters upper gum and curves around lips). LOWER = LI. Exam-critical distinction per Dr. Zhang.

22 D How many total branches does the ST meridian have?

6 branches: face/forehead, facial internal to ST+SP, straight portion through nipple to groin, stomach orifice to 2nd toe, tibial branch, foot branch to SP1.

23 C The Front-Mu of the Stomach itself is:

CV12 Zhongwan = Front-Mu of Stomach. ST25 Tianshu = Front-Mu of LI. Know both - they appear on the crossing points list.

24 D Which CV crossing point of ST is at the mentolabial groove?

CV24 Chengjiang (mentolabial groove) - ST curves around lips and descends to meet Ren Mai here before running across cheek to ST5.

25 B ST34 (Liangqiu) location:

ST34 = Xi-Cleft, 2 cun above the superolateral border of the patella. Used for ACUTE stomach pain and gastritis.

26 C SP1 (Yinbai) is which type of point?

SP1 = Jing-Well point. Located at the medial nail corner of the big toe. STARTING point of SP meridian.

27 C SP21 Dabao - what is its category?

SP21 Dabao = Great Luo-Connecting point of the Spleen (also called Major Collateral). Also the LAST point of SP.

28 D Which SP crossing point is the Front-Mu of the Liver?

LR14 Qimen = Front-Mu of Liver. SP crosses LR14, allowing one needle to treat SP, LR, and ST simultaneously.

29 C Which of the following is FORBIDDEN IN PREGNANCY?

SP6 (Sanyinjiao) - 3-Yin meeting point with strong descending/moving action. Also forbidden: LI4, BL60, BL67.

30 B According to Dr. Zhang, ST36 has been shown in Nature studies to:

Dr. Zhang: 'Studies published in Nature show ST36 can relieve inflammation immediately. It stimulates Qi and blood.' #1 tonic + immunity point.

Answer Key - Set B (Q31-Q60)

score, then re-drill only the misses

31 C The Stomach channel belongs to which of the six levels? ST is Foot-YANGMING. Yangming is the anterior yang level; on the trunk it runs most laterally.

32 A Which point is the Xi-Cleft of the Stomach channel? ST34 Liangqiu, 2 cun above the superolateral border of the patella. Xi-Cleft = acute conditions.

33 B ST12 Quepen is located at: ST12 Quepen sits in the center of the supraclavicular fossa, 4 cun from the midline.

34 B The Back-Shu point of the Stomach is: BL21 Weishu is the Back-Shu of the Stomach. BL20 Pishu is the Back-Shu of the Spleen.

35 B Which ST point marks the center of the nipple and is never needed? ST17 Ruzhong is a landmark reference point only - it is not needed or moxed.

36 A ST31 Biguan is located: ST31 Biguan lies directly below the anterior superior iliac spine, level with the perineum.

37 A The Jing-River point of the Stomach channel is: ST41 Jiexi, at the center of the dorsal ankle crease. On a yang channel Jing-River = Fire.

38 B Which ST point sits 8 cun below ST35? ST38 Tiaokou is 8 cun below ST35. ST37 is 6 cun and ST39 is 9 cun below ST35.

39 C The Stomach channel's internal branch first reaches which Ren Mai point? CV12 Zhongwan - which is also the Stomach's own Front-Mu point, 4 cun above the navel.

40 B On the lower leg the ST channel runs along which landmark? ST descends along the anterior border of the lateral tibia toward the dorsum of the foot.

41 B The Yuan-Source point of the Spleen channel is: SP3 Taibai is both Shu-Stream and Yuan-Source. On yin channels these coincide.

42 B Which SP point is the Xi-Cleft? SP8 Diji, 3 cun below SP9 on the posterior tibial border. Used for acute dysmenorrhea.

43 B The Front-Mu point of the Spleen is: LR13 Zhangmen is the Front-Mu of the Spleen - note it sits on the LIVER channel.

44 B SP2 Dadu is which Five-Shu point, and which element? SP2 Dadu is the Ying-Spring point. On a yin channel Ying-Spring = Fire.

45 B Which SP point is level with the navel, 4 cun lateral to the midline? SP15 Daheng is level with the navel, 4 cun lateral. SP16 is 3 cun above it.

46 B The Jing-River point of the Spleen channel is: SP5 Shangqiu, anterior-inferior to the medial malleolus. On a yin channel Jing-River = Metal.

47 B Which SP crossing point is the Front-Mu of the Gallbladder? GB24 Riyue, 7th intercostal space, 4 cun lateral. One needle can treat SP, LR and GB.

48 D The Spleen channel's surface pathway terminates at: SP21 Dabao on the midaxillary line, 6th intercostal space - the Great Luo of the Spleen.

49 B Which meridian receives Qi directly after the Spleen in the circadian cycle? SP (9-11 AM) hands off to HT (11 AM-1 PM), via SP's internal branch into the heart.

50 B SP6 Sanyinjiao is the meeting point of which three channels? SP6 unites the three leg YIN channels: Spleen, Liver and Kidney. Forbidden in pregnancy.

51 B SP4 Gongsun is paired with which point in the confluent point system? SP4 (Chong Mai) pairs with PC6 (Yin Wei Mai) - the classic chest/heart/stomach pairing.

52 B Which ST point lies in the carotid region and influences blood pressure? ST9 Renying, level with the laryngeal prominence. A Window of Heaven point - needle with care.

53 C The ST channel crosses the Du Mai at which point on the philtrum? GV26 Shuigou, in the upper third of the philtrum. Emergency resuscitation point.

54 C On a YIN channel, the Jing-Well point corresponds to which element? Yin channels start at Wood; yang channels start at Metal. So SP1 = Wood, ST45 = Metal.

55 C Which statement about the SP 8-cun crossover is correct? Below 8 cun above the medial malleolus SP runs POSTERIOR to LR; above it SP crosses in front.

56 C The Luo-Connecting point of the Stomach channel is: ST40 Fenglong, 8 cun above ST41, 2 finger-breadths lateral to the tibia. The phlegm point.

57 C Which ST point is the Lower He-Sea of the Small Intestine? ST39 Xiajuxu, 9 cun below ST35, is the Lower He-Sea of SI. ST37 serves the LI.

58 C A patient reports numbness on the underside of the tongue. Which channel? Only the SP channel spreads over the lower surface of the tongue. Dr. Zhang: always SP in clinic.

59 B Counterflow Stomach Qi typically presents as: ST Qi should descend - when it counterflows, vomiting results. SP Qi failing to ascend gives diarrhea.

60 B Which sequence correctly completes the Anterior Circuit? Chest to hand (LU), hand to head (LI), head to foot (ST), foot to chest (SP).
