

The 12-channel skeleton – memorize this before memorizing points

Per the ChatGPT study-system conversation: 'For every channel you should eventually answer six things without looking.' This page is the skeleton that makes those six things deducible instead of memorized one at a time.

1. THE SEQUENCE (write this from memory every session)

LR -> (loops back to) LU — the Qi cycle is closed, 24-hour clock

2. THE CYCLE (every channel is part of this loop)

Chest -> Hand -> Head -> Foot -> Chest

3. YIN/YANG DIRECTION RULES (deduce direction from category)

CATEGORY	DIRECTION	CHANNELS
Hand-Yin	Chest -> Hand	LU, HT, PC
Hand-Yang	Hand -> Head	LI, SI, SJ
Foot-Yang	Head -> Foot	ST, BL, GB
Foot-Yin	Foot -> Chest/Abdomen	SP, KI, LR

4. THE 3 CIRCUITS

Anterior Circuit LU -> LI -> ST -> SP (chest -> hand -> head -> foot -> chest)

Posterior (Inner) Circuit HT -> SI -> BL -> KI (chest -> hand -> head -> foot -> chest)

Middle Circuit PC -> SJ -> GB -> LR (chest -> hand -> head -> foot -> chest)

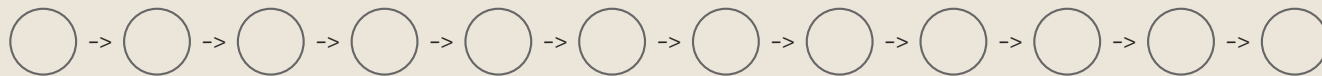

How to use: fill this whole page from a blank sheet before every study session. Once it's automatic, questions like "SJ: hand or foot? Yin or Yang? Direction? Pair?" become deductive instead of brute-force recall.
