

WEEK 4 | QUIZ KIT

Print Edition

# 30-Question Practice Quiz

*Heart & Small Intestine Channels - closed book*

## HEART (HT)

Yin | Fire | 11 AM-1 PM | 9 points

*Hand Shaoyin | 0 crossing points*

## SMALL INTESTINE (SI)

Yang | Fire | 1-3 PM | 19 points

*Hand Taiyang | 2 crossing points*

### Coverage

10 easier recall questions (concepts, point counts, clock times)

Q1-Q10

10 applied questions (point categories, locations, syndromes)

Q11-Q20

10 trap/nuance questions (exceptions, circuit traps, EXCEPT format)

Q21-Q30

Full answer key with explanations for all 30

at the back

### How to use this

- Close the book. No notes, no app.
- Take it in one sitting, ~25 min.
- Mark every guess, even correct ones.
- Score, then re-drill ONLY the misses.
- Green = easy, gold = applied, red = trap.

### Scoring guide

- |                 |                                        |
|-----------------|----------------------------------------|
| <b>27-30</b>    | Exam ready. Preview Week 5 midterm.    |
| <b>23-26</b>    | Solid. Drill missed categories.        |
| <b>18-22</b>    | Re-read the Study Guide pathway pages. |
| <b>Below 18</b> | Full re-study before Quiz 4.           |

*30 questions, 10 easy + 10 medium + 10 hard - covers HT & SI comprehensively.**Cross-checked against the Week 4 Study Guide's verified point data - nothing invented.*

Dr. Vivian Zhang, Ph.D. | Jon Centeno, D.AcHM Candidate | VUIM

## Questions 1-15

HT &amp; SI | no notes

- 1** How many points does the HT channel have?

A. 9  
C. 19

B. 11  
D. 20
- 2** How many points does the SI channel have?

A. 9  
C. 19

B. 11  
D. 20
- 3** What element do HT and SI both belong to?

A. Earth  
C. Water

B. Fire  
D. Wood
- 4** HT is classified as which Yin/Yang type?

A. Yin (Hand-Shaoyin)  
C. Yin (Foot-Shaoyin)

B. Yang (Hand-Taiyang)  
D. Yang (Foot-Taiyang)
- 5** SI is classified as which Yin/Yang type?

A. Yin (Hand-Shaoyin)  
C. Yin (Foot-Taiyin)

B. Yang (Hand-Taiyang)  
D. Yang (Foot-Yangming)
- 6** Peak Qi activity of the Heart meridian is:

A. 9-11 AM  
C. 1-3 PM

B. 11 AM-1 PM  
D. 3-5 PM
- 7** Peak Qi activity of the Small Intestine meridian is:

A. 11 AM-1 PM  
C. 3-5 PM

B. 1-3 PM  
D. 5-7 PM
- 8** The CONNECTING organ of the Heart meridian is:

A. Lung  
C. Small Intestine

B. Stomach  
D. Bladder
- 9** HT's Back-Shu point is:

A. BL14  
C. BL20

B. BL15  
D. BL27
- 10** SI's Front-Mu point is:

A. CV12  
C. CV4

B. CV14  
D. CV3

**Questions 1-15 (continued)**

HT &amp; SI | no notes

**11****HT7 Shenmen holds which special point categories?**

- A. He-Sea + Luo-Connecting
- B. Shu-Stream + Yuan-Source
- C. Jing-Well + Xi-Cleft
- D. Front-Mu + Back-Shu

**12****Which HT point is the He-Sea?**

- A. HT3 Shaohai
- B. HT7 Shenmen
- C. HT9 Shaochong
- D. HT1 Jiquan

**13****SI3 Houxi holds which special categories?**

- A. Yuan-Source only
- B. He-Sea + Xi-Cleft
- C. Shu-Stream + Confluent (opens Du Mai)
- D. Jing-Well + Luo

**14****SI3's Confluent action opens the Du Mai in combination with which point?**

- A. LU7
- B. BL62 Shenmai
- C. KI6
- D. SP4

**15****HT9 Shaochong is which Five-Shu category?**

- A. Jing-Well
- B. Ying-Spring
- C. Shu-Stream
- D. He-Sea

## Questions 16-30

HT &amp; SI | no notes

**16 SI's Lower He-Sea point is located on which channel?**

- A. SI itself
- B. BL
- C. ST
- D. GB

**17 Which point is SI's Xi-Cleft?**

- A. SI4 Wangu
- B. SI6 Yanglao
- C. SI7 Zhizheng
- D. SI8 Xiaohai

**18 HT5 Tongli's special category is:**

- A. Luo-Connecting
- B. Xi-Cleft
- C. Yuan-Source
- D. He-Sea

**19 SI16 Tianchuang is classified as:**

- A. Window of Heaven
- B. Confluent
- C. Front-Mu
- D. Back-Shu

**20 Per Dr. Zhang's lecture, which point is specifically noted for breast milk / lactation problems?**

- A. HT8 Shaofu
- B. SI1 Shaoze
- C. SI19 Tinggong
- D. HT3 Shaohai

**21 How many crossing points does the HT channel have?**

- A. 0
- B. 2
- C. 4
- D. 6

**22 How many crossing points does SI have, and with which channels?**

- A. 0
- B. 2 (BL1, GB14)
- C. 6 (mostly abdomen/chest)
- D. 11 (mostly face/head)

**23 SI's facial branch crosses BL1 Jingming en route to:**

- A. The ear
- B. The inner canthus of the eye
- C. The nose
- D. The mouth

**24 Which statement about HT is exam-critical and TRUE?**

- A. HT has the most points of any channel
- B. HT is the only channel with zero crossing points
- C. HT connects internally to the Lung
- D. HT's Back-Shu is CV14

**25 Per Dr. Zhang's circuit-continuity trap, SI connects internally to which organ NEXT?**

- A. Pericardium
- B. San Jiao
- C. Bladder
- D. Kidney

**Questions 16-30 (continued)**

HT &amp; SI | no notes

- 26** HT and SI together open which circuit?
- A. Anterior Circuit
  - B. Posterior Circuit (also called Inner Circuit)
  - C. Ministerial Fire Circuit
  - D. Middle Circuit

- 27** The Primary Fire pair (HT/SI) should not be confused with which other Fire pair?
- A. LU/LI
  - B. ST/SP
  - C. PC/SJ (Ministerial Fire)
  - D. BL/KI

- 28** EXCEPT: all of the following are TRUE about SI EXCEPT:
- A. SI has more than double HT's points
  - B. SI3 opens the Du Mai
  - C. SI's Lower He-Sea is on the SI channel itself
  - D. SI crosses BL1 and GB14

- 29** Which HT point is the emergency point for severe heart pain and revives consciousness?
- A. HT7 Shenmen
  - B. HT9 Shaochong
  - C. HT3 Shaohai
  - D. HT5 Tongli

- 30** HT6 Yinxi (Xi-Cleft) is clinically noted for:
- A. Anxiety and insomnia only
  - B. Night sweats and acute heart pain
  - C. Voice disorders
  - D. Arm pain only

**Answer Key - All 30 Questions***score, then re-drill only the misses***1 A How many points does the HT channel have?**

HT has 9 points (HT1-HT9) - the fewest of any primary channel.

**2 C How many points does the SI channel have?**

SI has 19 points (SI1-SI19) - more than double HT's count.

**3 B What element do HT and SI both belong to?**

HT and SI are the Primary Fire pair (not to be confused with PC/SI, the Ministerial Fire pair).

**4 A HT is classified as which Yin/Yang type?**

HT = Heart Meridian of Hand-Shaoyin - a Yin, Zang (organ) channel.

**5 B SI is classified as which Yin/Yang type?**

SI = Small Intestine Meridian of Hand-Taiyang - a Yang, Fu (bowel) channel.

**6 B Peak Qi activity of the Heart meridian is:**

HT peaks 11 AM-1 PM, immediately after SP (9-11 AM) and before SI (1-3 PM).

**7 B Peak Qi activity of the Small Intestine meridian is:**

SI peaks 1-3 PM, immediately after HT.

**8 C The CONNECTING organ of the Heart meridian is:**

Pertaining = Heart, Connecting = Small Intestine (interior-exterior pair).

**9 B HT's Back-Shu point is:**

BL15 Xinshu is HT's Back-Shu point. (SI's is BL27 Xiaochangshu.)

**10 C SI's Front-Mu point is:**

CV4 Guanyuan is SI's Front-Mu point. (HT's is CV14 Jique.)

**11 B HT7 Shenmen holds which special point categories?**

HT7 is both the Shu-Stream and Yuan-Source point - the single most important point for calming Shen.

**12 A Which HT point is the He-Sea?**

HT3 Shaohai is the He-Sea point, at the elbow crease.

**13 C SI3 Houxi holds which special categories?**

SI3 is Shu-Stream and also a Confluent point opening the Du Mai.

**14 B SI3's Confluent action opens the Du Mai in combination with which point?**

SI3 (Houxi) pairs with BL62 (Shenmai) to open the Du Mai - one of the 8 Confluent point pairs.

**15 A HT9 Shaochong is which Five-Shu category?**

HT9 is the Jing-Well point - the last point of HT, on the radial side of the little finger.

**16 C SI's Lower He-Sea point is located on which channel?**

SI's Lower He-Sea is ST39 Xiajuxu - on the STOMACH channel, not SI. True for all six Fu organs.

**17 B Which point is SI's Xi-Cleft?**

SI6 Yanglao is the Xi-Cleft point, dorsal to the head of the ulna.

**18 A HT5 Tongli's special category is:**

HT5 Tongli is the Luo-Connecting point, linking HT to SI.

**19 A SI16 Tianchuang is classified as:**

SI16 is a Window of Heaven point, near the laryngeal prominence - needle with care (carotid region).

**20 B Per Dr. Zhang's lecture, which point is specifically noted for breast milk / lactation problems?**

Dr. Zhang highlighted SI1 (Shaoze) specifically for lactation problems.

**21 A How many crossing points does the HT channel have?**

HT is the only one of the 12 primary channels with ZERO crossing points anywhere on its pathway.

**22 B How many crossing points does SI have, and with which channels?**

SI crosses only twice: BL1 (Jingming) and GB14 (Yangbai), both on its facial branch.

**23 B SI's facial branch crosses BL1 Jingming en route to:**

BL1 sits at the inner canthus; SI's ascending branch crosses it heading toward the eye.

**Answer Key (continued)***score, then re-drill only the misses***24 B Which statement about HT is exam-critical and TRUE?**

HT's zero crossing points is one of the highest-yield unique-feature facts in the Weeks 1-4 scope.

**25 C Per Dr. Zhang's circuit-continuity trap, SI connects internally to which organ NEXT?**

SI connects to BLADDER next (not PC/SJ) via its facial branch to BL1 - a classic exam trap.

**26 B HT and SI together open which circuit?**

HT -> SI opens the Posterior Circuit (also called Inner Circuit on the revised Lecture 4 slide).

**27 C The Primary Fire pair (HT/SI) should not be confused with which other Fire pair?**

PC and SJ are Ministerial Fire, a separate pair with their own circuit taught in Week 6.

**28 C EXCEPT: all of the following are TRUE about SI EXCEPT:**

SI's Lower He-Sea is ST39, on the STOMACH channel - not on SI itself. The trap answer.

**29 B Which HT point is the emergency point for severe heart pain and revives consciousness?**

HT9 (Jing-Well) is HT's emergency point - severe heart pain, palpitations, revives consciousness.

**30 B HT6 Yinxi (Xi-Cleft) is clinically noted for:**

As HT's Xi-Cleft (acute) point, HT6 treats night sweats and acute heart pain.
